COMMUNITY COUNCIL REPORT

In order that the people of Windham may realize how beneficial the Community Council has been to the town the following report is respectfully submitted:—

The Community Council is composed of representatives from every organization in the town plus any individuals who are interested. They meet monthly to discuss topics for town betterment and have either started or carried out the following movements for the good of the town:

1. Succeeded in retaining our Rural mail carrier when, on the retirement of Mr. Wells on pension, the post office department tried to consolidate rural routes and dispense with our carrier.

2. At the investigation of the council an electric grille was presented to the new school by the Grange.

3. The Council sponsored a reception to Mr. Wells upon his retirement as rural mail carrier on pension.

4. A dental clinic for the school children was sponsored two years ago at which time over 75% of the school children were treated. Another dental clinic is requested by the school nurse and the council expects to sponsor it as soon as travel improves in the Spring.

5. Under council sponsorship, electric clocks for the new school were furnished by the Neighborhood Club and Women's Club.

Other worthy projects are now being discussed and the council would appreciate more interest and cooperation from the people of Windham in order that more benefits may be obtained for the town.

A study of the enrollment data given at the beginning of this report will reveal the fact that during the last three years the number of pupils attending the Windham schools has steadily increased. The total enrollment, to date, for the present year has been 96 which is an increase of 26 over a two year period. At the same time the number of Windham boys and girls attending high school is two less than were in attendance two years ago but four more than were enrolled on this date last year.

It is commendable to note that most of the boys and girls who graduate from our schools enter secondary school. Reports from the various high schools indicate that, for the most part, those pupils are doing all that may be expected of them.

On Monday afternoon, June 17, 1940, graduation exercises were held in the Searles Chapel for eight pupils who had completed the prescribed elementary program of studies. These pupils were the first to graduate under the new consolidated set-up for the schools of Windham. Appropriate exercises preceded the awarding of certificates. The list of graduates follow:

Lorraine Bourke	June Yelland
Dorothy Gould	Mae Yelland
Mary Waterhouse	Janet Scott
Margaret Smith	Ethel LeTourneau

It will continue to be our policy to furnish pupils and teachers with ample textbooks and materials. Much attention has been given these instructional needs during the past few months. A new language series for grades three through eight has been installed besides various reading materials in all grades. Other book purchases include: geographies for grade six, social science workbooks for grades seven and eight, and additional literature books, dictionaries, arithmetics, and health-science books made necessary due to increased enrollments in all grades. The music books were rebound, at a savings to the district, thereby prolonging their use a few years.

Certain repairs have been accomplished in the schools since the previous report. The tower, roof, and retaining walls at the Searles School are now in a good, safe condition as a result of the special appropriation made last March. During the summer the classroom floors of all schools were treated and the basement floors of the new school were painted. The usual cleaning and minor repairs were done. Screens were provided for various windows of the two buildings. Additional seats and desks were furnished the Searles School and the primary room of the new building. It is important that constant attention be given a school plant. The Windham school property is in fine condition and it is economical to **keep it so.**

The budget total, as proposed for 1940-1941, shows a reduction of \$440.54 from the figure voted last year which included special appropriations for repairs and other matters. Most items of the suggested budget are the same as those approved for the current year—increases being noted for insurance on the school buildings and the amount necessary for the proper maintenance of the property.

It has been a pleasure to be associated with the members of school board, teachers, pupils, parents and citizens during the past year.

In conclusion I would like to call your attention to the following extract which appeared in a recent publication: "Since we are threatened from within more than from without, our most important task is to unite all the people of this nation for one common goal and one common purpose, the preservation of our democracy. We must bend every effort to wipe out greed, ignorance, biased opinion, bigotry, intolerance and all other evils that shelter and nourish the subversive and un-American forces in our social, political and economic life.

We assert that the schools of America have fostered and upheld the ideals of American democracy. We have taught and we must teach with greater emphasis, the blessings and privileges bestowed upon the individual by our democratic form of government. At the same time we must not let anyone forget that these liberties involve and require the highest degree of individual and group responsibility and sacrifice for the common good."
